THE EPISCOPAL CONCERT POSTPONED A WEEK.—In consequence of the indisposition of one of the vocalists, the concert for the benefit of St. Philip's Church will not take place till Thursday evening, May 9th.

HOW VERY SAD.—A young Peachtree shoe dealer was considerably exercised at the depot this morning, having, in the large crowd attending the First Baptist Sunday School picnic, lost his handsome wife. He consoled himself for the loss, however, by grasping hold of the lunch basket. Lo! and behold the handle of the basket gave way and as a huge medley of ham, biscuit, chicken pies, cakes, pickles, jellies, etc., tumbled out, he exclaimed sorrowfully, "What you want to leave me too?"

FIRE.—Between four and five o'clock this morning, a fire broke out in the one-story wooden building on Peachtree street, occupied as a grocery store by Mr. Fickett. It is said to have originated from the explosion of a lamp. The flames communicated with some kerosene oil and the fire destroyed that building, a carpenter's shop adjoining, and the workshop of Mr. Judson. The buildings were old and rickety. Mr. Fickett had an insurance on his stock for $600, we learn. His loss is about $1,300. Mr. Judson saved nearly all of his tools, and nearly all his marble. His loss will foot up about $1,500—no insurance. The carpenters', painters' and harness shop in the same building—was kept by Macy & Co.—We did not ascertain the full extent of their loss.

OUR TERRELL COUNTY LETTER.

Crops. Manufactures, Things, etc.

DAWSON HOUSE, DAWSON, GEORGIA, April 26, 1872.

Editors Constitution: In this section, as in the more Eastern portions of Southwestern Georgia, the farmers have suffered with excess of rain, overflowing of the low-grounds and inability to plant because of the standing water. The more Western portions, in the hill country of Clay and Randolph, there is less complaint because of the rolling character of the lands and the more ready drainage. Throughout the entire country here, the mill dams have been broken by the floods, and the bridges over many of the streams carried away or seriously damaged. These misfortunes are, however, being rapidly overcome by the energy and promptness of the people, and the improvements will surpass the old structures. The complaint of faulty cotton seems to be general, and good seed are in greater demand than at any time since the planting season of 1866.

The town of Dawson presents, perhaps the most healthy appearance of any town of the size in this part of the State, can boast of more children, and more fat men, than any other place of the same population—"they say" anywhere. The children are amply provided for in the way of schools under the control of competent and efficient teachers, and all are awake to the interests of education.

Nothing, perhaps, adds more to this place than the manufacturing interests here. Col. O. O. Nelson, with his energy and perseverance, has established here a car manufacturing establishment. The Dawson Manufacturing Company employ regularly, at good wages, from seventy-five to one hundred mechanics in this industry. Their earnings are expended in the town for the support of their families and the education of their children. They extend in the place, with the merchants there, as one was heard to say, not less than $70,000 or $60,000 per annum. This company is now shipping fifty first class box cars to the Port Royal road in South Carolina, and have orders for others. They are supplying many of the southern roads with cars of the best style, and Colonel Nelson informs us they are going into the manufacture of passenger coaches at once, and have orders now on hand to be filled. They use Georgia and Alabama iron and Georgia pine, having access to any quantity and of the very first class for such purposes. Their business is rapidly increasing, and with its increase will be employed more mechanics, whose families will swell the population of Dawson, increase her mercantile business and add to the farmers who support them.

We are often asked the question "why is Atlanta what it is?" and then that old stereotyped assertion, "it has no rich surrounding country to back it;" "Atlanta must go up;" "there is bound to be a crash," and all that sort of thing. Now, when we see what our manufacturing company has done, and is doing, for Dawson, and consider the number of manufacturing interests in every department of industry going on in Atlanta, consider that there is paid out in the city from week to week, from $40,000 to $50,000 to mechanics and laborers for the development of these industries that "gather gain by every means" from every section of the country, we can readily see why Atlanta is what Atlanta is. It is a most natural conclusion for the farmer and planter, the man who developes from the ground—the rich and generous soil—all that he garners and gains, and conclude that without that generous soil to which he looks for gain, all must fail as with him, and a city must go down. Should not these examples of industry and enterprise stimulate others who have the means to embark in manufacturing enterprises? But, we ask pardon for this diversion and return. Dawson, though most of the business part was reduces to ashes very recently, has rebuilt with handsome brick blocks, with well apportioned business houses and all present the appearance of prosperity. Cosily ensconsed within one of these is our friend Weston, of the Dawson Journal, who always goes in full-handed for what he believes to be right. He and his journal are quite popular and well to do, but he has a decided distaste for what he calls "patent outsiders." The "plant boys" of Dawson promise to take care of Weston in case of any *outside* pressure, and with this, we would say that he is very heavily backed.

We notice in this section that the recent cold nights have tended to injure what little young cotton is up. The injured condition of the seed even when they germanate is such that the young plants are weak. Many of them die out and there will be such a scanty stand that many will be compelled to plough up and plant again, or what would be, perhaps, better, plant corn instead. Upon the whole the cotton crop in this entire portion of the State is anything but flattering, prospectively. W. A. L.

OUR WASHINGTON LETTER.

The Weather---Adjournment---Cincinnati Nominees---Mixed Schools---Investigations---Court of Claims---The Japs.

WASHINGTON, April 26, 1872.

Two nights ago the atmosphere was decidedly wintry, and the sky wore the dull, yellow tinge observable in dreary December. To-day we swelter under a tropical heat. This sudden leap from winter to midsummer will have its effect on Congress. The chances for an early adjournment, are materially strengthened thereby. The Grant faction have been anxious for a speedy termination of the session, and now the prospects for continuous hot weather, with its attendant ills, will tend to scarce away those who would prefer to attend to the public business before their departure. Civil service reform is dead and buried, and needs no further attention, but the dominant faction can hardly afford to go before the country without making a pretense, at least, of reducing taxation. Still it is believed that Congress adjourns before the first of June there can be no action on the tariff. Neither is it likely that an amnesty bill can be passed. By the aid of Democratic votes quite a number of jobs have been defeated for the time, and on this record the Radicals will plume themselves. They hope, however, to resurrect these schemes after the Presidential election is over.

THE CINCINNATI NOMINEES.

It seems to be accepted as a finality that Judge Davis is to be nominated for the Presidency at Cincinnati, although one cannot well help thinking, in this connection, of the saying, "The best laid schemes a' mice and men gang aft aglee." Still the wire-pullers think they have "fixed things," and perhaps they have. Over the nomination for the Vice Presidency something of a contest is expected. There are at least half a dozen candidates in the field, most of whom have been referred to in former letters. Governor Gilbert C. Walker, of Virginia, is now looming up for the second office in the gift of the people, and the Sunday Herald, of to-morrow, will strongly endorse his claims. Governor Walker is a carpet-bagger, being a native of New York, but has thoroughly identified himself with the material and political interests of Virginia. He is a man of fine presence, having indeed the courtliness and stately bearing of a Southern gentleman of the old regime; is possessed of fine abilities, and is exceedingly popular in his adopted State. He would make an excellent Vice President.

MIXED SCHOOLS.

A meeting in favor of mixed schools was held here a few evenings since in Union League Hall, in which whites and blacks participated. The names of a large number of local officials, including that of Governor Cook, appear as supporters of the movement to break up the public schools by an indiscriminate mixing of the races, and in favor of social equality. Before the late election there was a disavowal of any such intention by most of these gentlemen, but this is only another instance of how little dependance can be placed upon the pledges of Radical politicians.

THE INVESTIGATIONS

are thinning out. With regard to some of them there is evidently nothing the case respecting the investigation into the corrupt means by which Powell Clayton, of Arkansas, secured his election to the United States. The evidence now in possession of the committee is said to fully warrant his expulsion; and both Pomeroy and Caldwell, of Kansas, must also be expelled if the charges against them are considered, as the proofs of their corruptions are too glaring and specific to be overlooked or ignored. The investigation into official conduct of the Board of Public Works of this District has about fizzled out, and has accomplished nothing save to delay work on necessary improvements.

THE COURT OF CLAIMS.

Congress is very jealous of this institution and is forever endeavoring to legislate it out of its legitimate functions. The Senate was in a more liberal spirit than usual yesterday, however, and made some accessions in favor of claimants. This was the more remarkable in view of the large number of cases in which decisions were given against the Government on Monday last. The House may, however, prove less considerate.

THE JAPS.

Our Japanese visitors seem determined to post themselves thoroughly in every branch of our civil service. Yesterday they visited the spirit-division of the Internal Revenue office, and in the course of a couple of hours obtained a pretty clear insight into the workings of that bureau. They carried away copies of all the forms and notes of every detail for the running of a distillery from its first starting to the assessment of the tax upon its products. We shall next hear of their starting whisky mills in Japan.

Cows, it is well known, are quite sensitive to sights and sounds during the time they are milked. Unless they are at perfect ease, they will not give their milk freely. For this reason when called upon to milk everything that distracts her attention and ruffles her placidity should be avoided.

The manufacture of maple sugar is an important industry in Vermont. In Wilmington, in fifteen districts, the aggregate amount made was 274,576 pounds, or a little more than 137½ tons.

The experiment of feeding a Suffolk pig on sugar beets was tried. When fed on ground corn and oats, the pig gained about 1½ lbs. a day. When fed on boiled sugar beets, it gained 2 lbs. a day.

WASHINGTON.

WASHINGTON, May 1.—The judgments entered upon cotton claims from Savannah, Mobile and New Orleans do not amount to more than two millions dollar.

The Morrill amendment which passed the Senate has the effect of reviewing the Supreme Court decisions on constitutional questions before the court. For this reason it is thought that it cannot pass the House. In any event, it is not thought that judgments obtained prior to the passage of the amendments will be disturbed. These are made payable in ninety days from the date of entry.

The House concurred in the Senate amendment to the bill abolishing the duty on tea and coffee, so the bill now goes to the President for approval.

CINCINNATI, May 1.—A few delegates are leisurely drifting in and taking their seats. The reporters are beginning to fill the places assigned them. Fighting Fellows.

The nations of Europe are reorganizing their armies, and the increase will raise the number of fighting men to ten millions Germany increases $400,000; Russia, one-half, going to three millions; France to a million and a half; Italy to 800,000, Turkey one-half, or to 600,000; England 300,000. These men are not actually drawn from civil pursuits, but to have military training.

Mercer University.

The Board of Trustees of this institution are making arrangements for mess boarding, so that young men can board themselves at the rate of eight or ten dollars per month.

They have also resolved to receive indigent young men free of charge for tuition, who can obtain the written indorsement of two members of the Board of Trustees. Any young man or boy of good character, qualifications, etc., can now obtain a collegiate education at very small expense.

The Georgia Bond Committee.

Two members of the Georgia Bond Committee, Captain John I. Hall and Garnett McMillan, arrived in Atlanta yesterday from New York, where they have been for three weeks registering bonds and investigating the bond matters. Colonel Simmons remained behind for a few days.

The trip was a valuable one, and results vindicate its wisdom and absolute necessity. Facts were learned of surpassing importance that could only have been thus learned. Light was gained on the bond question that only thus could have been obtained. The committe was neither wined nor dined, but steadily refused all attentions and did their business alone. Major Bacon was with them awhile.

The reports circulated by Henry Clews in the New York papers that they consulted or were influenced by him are wholly untrue. They sent for him and examined him for three hours, and this was the extent of their intercourse with him. Shortly after their arrival, a short hand reporter presented himself to take down their testimony, saying they could not get along without such a reporter. They declined his services, and asked him who sent him to them. He said Henry Clews. The innocent departed unemployed.

The registration of bonds is not quite complete. Some in Europe have not been registered. The amount will run to over nineteen millions, and perhaps up to twenty-one millions.

The illegality of the Brunswick and Albany Railroad bonds was clearly proven. The whole matter was thoroughly ventilated. Numbers of witnesses testified fully showing that the indorsement was sought with the knowledge of the road being unfinished to legally call for the indorsement. One General Ledlie, a Federal General, gave his testimony fully and frankly.

He was drawn into the matter and put in $50,000, for which he holds illegal bonds. He is a sufferer to that amount. The bill giving the second installment of $8,000 per mile in gold of State aid to the road was proven to have been drawn up by the company and a bill of $400,000 expenses for getting it passed the Georgia Legislature was presented. Some very leading men are implicated in the reception of some of this commission fund, among them Democrats.

Money was also proven to have been spent in securing the passage of the first endorsement of this road.

The $600,000 bonds of the South Georgia and Florida Railroad, running from Albany to Thomasville, were shown to be legal. The amount of $100,000 was loaned on $240,000 indorsed bonds of the Bainbridge, Cuthbert and Columbus Road, not one mile of which is built.

Of the three millions of gold State bonds two millions were sold, three millions are on deposit to the State's credit, and seven millions are hypothecated at about 75 cents on the dollar. The holders of these hypothecated bonds, as well as the purchasers of Kimball's Opera House bonds, are willing to take new bonds of the State at the value of their loans and purchase money.

Clews gave a most damaging piece of evidence against himself. He sold $1,650,000 of the gold bonds at 86½ and 87½ according to his account presented some time since. He had authority from Bullock to sell at 90 and 89 cents. He testified that he really sold at prices beyond 90 cents, pocketing all over the 90 cents. His testimony was evasive and dubious. He could not remember how much he had made over the 90 cents. Some of the bonds sold as high as 96 cents and from that price down to 90. He thus claims all over the 90 cents under Bullock's order to sell at 90, thus robbing the State of a large amount known only to himself. He was to get 2½ per cent. commission. Thus from 90 and 89 cents leaves the 86½ and 87½ cents for which the bonds were reported sold. Now, if, as seems the case, he took his commissions out of the 86½ and 87½ cents instead of the 90 cents, he has double commissions in addition to the surplus over the 90 cents retained by him without authority. And his pickings from the people of Georgia will run to hundreds of thousands.

The figures at which Clews sold the bonds show how Georgia stands in the markets of the world. Why, while the committee were in session a gentleman came in with $100,000 of the Jenkins issue of $614,000 State Road mortgage bonds used by Bullock, that he had exchanged for some old bonds he held, and he refused to sell for any thing less than par, alleging they were as good an investment as he wanted, and he knew the State of Georgia would not repudiate payment of money actually received. He was very willing to submit to the suspension of payment of interest while this investigation was going on, as he knew he would get it when the investigation was over. This is the way honest bondholders feel about this matter, and it illustrates how high stands Georgia's credit.

The currency bonds sent out were bought in, and it illustrates how reckless those New York capitalists and speculators can be that some who held these bonds for money loaned to Kimball, actually had a copy of Bullock's authority to Kimball to exchange the gold bonds for these currency bonds and take up the currency bonds and cancel them. They took copy of the authority without reading it closely, and loaned money on an authority that should have prevented any recognition of the bonds. The incident shows the daring of the agent, and the careless credulity of the money-lender. Of course these men cannot claim a dollar legally with such notice.

There is a great many matters of which it is not proper now to speak.

It is sufficient to say that the committee has done its duty well, that the results of the trip are of tremendous magnitude and importance to Georgia, that the bond-holders have been saved a large sum, amounting to nearly $400,000, that it would have cost them to have expressed their bonds to Georgia for registration, for which amount the State would have been in honor bound, and that the whole matter has been illuminated and made clear.

The committee will have a short meeting in Atlanta on the 21st of May to complete their testimony, and in June will work up their report for the Legislature.

CINCINNATI.

The Great Convention of the Liberal Republicans.

Preliminary Gossip and Speculation.

Facts, Fancies, Men, Plots, and Conjectures.

THE PROSPECT.

The hotels are filling up, the streets are noisy, and there is a conglomerate look about the crowds that begin to flow to and fro. But the correspondents, who are already here in force, have little to work on except their fancy. The great journals are represented by their best sketchers; so the "coming event" will not miss being written up and down.

ABSOLUTE PERSONAL INDEPENDENCE.

The spirit manifested thus far is one of absolute personal independence. No man goes into the convention precommitted; "you no like him, you no take him," is the word. The old twaddle about supporting the nominee is tabooed. The consequence of this volition is that everybody is feeling a personal interest in the result and becoming more or less a partisan. This is regarded by many as a sign of ill omen; but by the more sagacious it is considered a sign of promise. These latter hold it to be a bond of union which will work good after the ticket is made up, because the trading politicians will have no hand in it. No man can be nominated by stratagem. Open, fair sailing and the common consent are sure to be the animating principle of the convention. A more intelligent, orderly sincere and patriotic concourse never assembled.

GRATZ BROWN.

Next to Adams, in positive strength, comes Gratz Brown. It is claimed for him not only that he is the father of the Liberal movement, and its most conspicuous and brilliant representative, but that he is a growing man; that he will augment in popularity from the start, whilst the opponents of Adams aver that he will be as big in the beginning as he will ever be, and, if he does not "grow," that he will simply stand still, like a handsome piece of statuary. The Gratz Brown men are numerous and enthusiastic. They remind one of the Douglas men at Baltimore in 1852, and the Pendleton men at New York in 1868. Gratz is an ardent, courageous, dashing fellow; a bigger man than his friends really think him to be; and he has a future before him. But there is danger that his interests may be upset on the old rock which wrecked the Little Giant, the rock of precipitation. He is too young to be pushed. His interests are in peril of his friends. They will be here in force, and they will be clamorous. That will not answer either Gratz Brown's purpose or the purpose of the Liberals. The nomination that is made—to be effective—must give universal satisfaction to the Liberals. If it does that it will go through the Democracy like a dash. But, if there is a hitch or bobble among the liberals, the same thing may be expected among the Democrats. Gratz Brown has too much at stake to risk this by over-pressing his aspirations. If the movement is a success his future is assured. If it is a failure, "good evening, Gratz." So, he can afford to make sacrifices, and his friends ought to be inspired with the spirit of selfdenial.

GREELEY, TRUMBULL AND DAVIS.

Trumbull, somehow, is not as strong as he was a month ago, and Davis is at a decided discount. Indeed, the gathering of dead-beats at Columbus, which put Davis in the field, is regarded with pretty general contempt. Palmer and Greeley both have friends, but neither of them is in the front line.

ADAMS AND DAVIS.

Mr. Trumbull is not regarded as being an out-and-out applicant for the nomination, nor is Mr. Adams; hence Trumbull and Adams are the favorites of the field as matters stand. The Davis movement is looked upon as a politician's ring. Greeley is considered out of the question. Trumbull or Adams is the man; and I predict that either one or the other will be the nominee, or the convention will be a failure. It is the belief of the best posted politicians that Adams and Davis will prove the strongest ticket.

THE TRUMBULL LETTER.

There is great excitement here to-night about the letter of Judge Trumbull to Horace White. I have seen that letter, and can say it has no special import. It is a strictly private letter, eminently creditable to Judge Trumbull. It declares among other things that Judge Trumbull will consent to no nomination that is not spontaneous. His friends are of this mind. They are not pressing him at all.—*Correspondence Courier-Journal.*

GROESBECK'S QUARREL WITH BELMONT.

To Groesbeck's disgust, his favorite organ, the Commercial, went back on him. When Belmont came here he sent a mutual friend to invite Mr. Groesbeck to meet him. Groesbeck, who smarted under a sense of injury, sent word that if Mr. Belmont wanted to talk with him, he (Belmont) might wait upon him. To this Belmont replied: "Old Groesbeck can go to ——." As a consequence, Groesbeck now predicts the failure of the Liberal movement, says his friends have no loyalty, and expects some other movement of a conventional sort to consider his claims and talents.—*Herald.*

SUMNER GOING TO CINCINNATI.

James M. Scoville, chairman of the Cincinnati delegation from West Jersey, breakfasted with Charles Sumner. The Senator from Massachusetts will go to Cincinnati. He hopes the Cincinnati platform will finally and forever close the issues settled by the war. He hopes it will reassert the principles of the declaration of the fathers, which declares openly for civil rights. Massachusetts will be ably represented by such men as Francis Bird, Atkinson, Ellicott and others.

THE PRESS GANG.

It has probably seldom occurred in the history of the country that so many newspaper men have been attracted to a given place, though it would not be fair to say that they were all in favor of the Liberal movement. There is scarcely a prominent paper in the country of either party that has not a representative here, and in some cases two or three persons from the same office. Among the latest arrivals is Donn Piatt, who reached here to-night.

THE GEORGIA DELEGATION,

consisting of Col. Lee Hulbert, Governor James Johnson, Col. R. L. Mott, Col. T. P Saffold, R. L. McWhorter, J. H. McWhorter, Hon. J. M. Summers, Dr. W. R. Bell, J. C. Hendrix and J. C. Parrott, came to-night, and stopped at the Burnett House.

THE TARIFF QUESTION.

At a meeting of the New York delegation held to-day, a paper from Whitelaw Reid, of the New York Tribune, was presented, which it is understood embodies Mr. Greeley's views of a revenue plank in the platform, to be constructed. This provides that finding ourselves not fully agreed with respect to free trade as offered to protection, we respectfully commend the grave issues involved in that controversy to the careful study and unbiased adjudication of the people, urging them to choose members of Congress who truly embody and will faithfully reflect their will on that subject, pledging ourselves that that will, when thus authoritatively made known, be implicitly obeyed. It is understood that this was generally acquiesced in by this delegation, of which Governor Fenton is a member, and that it was presented to a private meeting of revenue reformers held at a late hour.

ADAMS AND DAVIS.

The canvass for candidates has been sharply conducted between the friends of Adams and Davis. As heretofore there is strong pressure from the East and Ohio for Adams, and it was given out this forenoon that the friends of Davis might, rather than yield to such nomination, bring forward a compromise candidate, and there is a growing conviction that in that event

GOV. JACOB D. COX

will be the man. There is one other point not lost sight of by some, that if the free trade influence succeed in securing the adoption of the Missouri platform, Horace Greeley will be strongly pressed for President in order to hold the protectionists.

The corridors of the Burnet House, which appear to be a kind of local point upon which the interests concentrated, have been thronged to day and to-night. This evening there appears to be less diversity of sentiment on the subject of candidates, though it was not impossible to hear from a prominent source intimations that there was

A SLATE FIXED UP

which if pressed on the convention boded no good to the purposes of the projectors.

WHAT HALSTEAD, OF THE COMMERCIAL, THINKS.

I interviewed Halstead, of the Commercial, and he says that if Davis is renominated he will come out flat footed for Grant. He says everybody is disgusted at Davis' acceptance of the Labor nomination and platform. Halstead ascribes great significance to Julian's desertion of the regular ticket in the old Free Soil Richmond District of Indiana, and says that it is a premonition of the terrific campaign to come off this fall between Morton and Hendricks for the Senate. Grant, according to Halstead, regards Indiana as the center of the position, and must support it.

Dick Bright, editor of the Indiana Sentinel and nephew to Jesse D. Bright, says that the Democrats of Indiana and Kentucky will vote for any Liberal put up at Cincinnati. *Cor. Chicago Tribune*

WHAT GRANT THINKS.

Reports from the White House show a total lack of appreciation of the political situation. A Senator who called to-day says he found the President jubilant. Somebody had written him from Illinois that the Liberal movement in that State had no depth, no hold upon the people, and that the State would stand by him with 40,000 majority. A Republican member of Congress from the same State assured the President that his correspondent was right, and that the Liberal leaders in that State were wholly without followers. When his attention was called to the fact that among the Liberals were several whose support he considered very valuable, if not essential, to his own success in the fall of 1870, he had no further remark to make. In one county in Illinois it is reported that the entire Republican Committee has joined the Cincinnati movement, leaving no one to call the administration county convention. *Cor. N. Y. Tribune.*

THE CHICAGO TIMES ON HORACE GREELEY

It is stated that the New York delegation to Cincinnati will support Horace Greeley for President. If there were no other objection to the nomination of Mr. Greeley, a fatal one is supplied by the fact that he has become the habit of the American people to smile whenever his name is mentioned. Now, the Cincinnati ticket will have to stand a great deal of abuse; but it cannot afford to be laughed at.

ALL IN DOUBT.

There seems to be a general diversity of opinion among those already here as to the probable course the convention will pursue, and the question of candidates is a matter beyond the reach of intelligent speculation. So far as can be gleaned from the opinions of gentlemen interested in the movement, there seems to be a feeling in regard to Adams' letter that it is too cold in tone, and not sufficiently explicit. Senator Trumbull's participation in the Radical caucuses at Washington and the authorship of the Civil-rights bill, appears to some to be insuperable objections that the nomination of that gentleman. Gratz Brown's claims are urged to the first place on the ticket only by the Missourians, and there is a report this evening that there is a defection among those gentlemen in favor of Trumbull. Judge Davis is urged by prominent Washington politicians now here, and as yet there seems to be no objection to him, except as a doubt is expressed as to his availability. Horace Greeley has many warm friends, not only among the arrivals here, but among the editors of the local press of Cincinnati. I have heard some express the opinion that the struggle would really be between Judge Davis and Mr. Greeley. Each arriving delegation, however, modifies the existing public sentiment, and twelve hours hence it may be entirely changed from what it is at the present time.—*Times.*

THE ILLINOIS DELEGATION AT LOGGERHEADS.

Rumors were rife on the streets last night that a serious split had arisen in the Illinois delegation, or at least in the part of it that is already on the battle ground. The parties to the squabble were very close-mouthed, indeed, but enough was let out to indicate that it proceeded from the claims that the triumvirate of aspirants from that State make for the nominations. Palmer's chances have run up so within a day or two as to seriously obscure Trumbull, and the chances of Judge Davis are not to be ignored by any means. It is not improbable now that Illinois will have three separate headquarters in this city, each one claiming to send the authorized representatives of the State to the Convention.—*Cincinnati Enquirer.*

SOME NOTES OF PREPARATION.

The Chairman of the Liberal Convention has advices from almost every State and Territory, and is apprised of delegates en route for the great gathering of Wednesday next. So far as learned, there has been none of the usual party machinery put in force, the whole movement being in the hands of Liberals, who enter the lines simply for reform. The movement in each State is spontaneous, the men comingare, in general, those who, in ordinary times keep out of politics. *Tribune.*

WHAT IF DAVIS BE NOMINATED.

If Davis is nominated the probabilities are that he will throw aside his gown, stalk out in his portly person before the people and show himself. He is really the ablest popular leader on the Liberal side, not excepting Gratz Brown.

DAVIS AND BROWN CONTRASTED.

Davis has great brawn, hardness of flesh, broad stature, and a fine, genial, beaming countenance. He has physical and mental boldness, and can direct his campaign on big physical principles. Gratz Brown could make a more brilliant canvass and say more extraordinary things, but he would probably begin under such high pressure, that before the campaign was done the people would be tired of so much genius, and would look with apprehension upon an administration which would read in history like one of Charles the XII. campaigns, and appear to the dazzled vision like a grand allegorical, red-headed tableau, in fireworks.

TRUMBULL AS PRESIDENT.

Trumbull would make a cautious, respectable, steadily growing campaign, but he would hardly have time enough, at his rate of development, to cover the country before the election would come off.

ADAMS NO GO.

Mr. Adams is of such a sedate, cool, self-poised temperament that the whole fight would have to be made by the ambitious and not over-enthusiastic friends who are bringing him out. He would probably make one speech, refuse to be interviewed by the newspapers of his own persuasion, and then shut himself up at Quincy, and finish that interminable life of his father and grandfather. If the North American Review could select a man President of the United States Mr. Adams might get in. But he will run off to Europe next week, any way.—*Cor. Herald.*

WHO CAN CARRY THE WEST.

In an interview of a Gazette reporter with Colonel W. M. Grosvernor, of Missouri, who reached this city yesterday, the Colonel expressed himself in regard to political matters as follows:

"I doubt if Mr. Adams would be the strongest man for the Presidency. He would carry Eastern States, but wouldn't have the same strength in the West. We count upon carrying New York, Massachusets, Connecticut and New Hampshire any how, but we want to carry Ohio, Indiana, Illinois, Missouri, Iowa and Minnesota. The candidates who could do this are Trumbull, Gratz Brown, or perhaps Governor Palmer. We have taken counsel with the leaders of the Democratic party, East, West and South, and they all say go ahead and nominate a ticket, and we will support it. The convention is not called in the interest of any Eastern State, but of the Mississippi Valley. We propose that the Mississippi Valley shall have the recognition and influence which it deserves."

THE SOUTH FOR DAVIS.

The Davis men boast that they will get the vote of the whole South with the exception of a few straggling ballots given for Horace Greeley. They say they do not want the vote of Louisiana.

CONNECTICUT.

To the Republicans of Connecticut: The undersigned have observed with pleasure that the call for a gathering of Republicans at Cincinnati, on the 1st of May, sets forth every principle for which the Republican party has contended, and invites only those who have sustained, and who pledge themselves by no act or word to endanger the vital principles of the Republican party, and who are in earnest in demanding reforms which no Republican, faithful to those principles in their logical application, can fail to support.

THE MOVEMENT IN WASHINGTON.

Though the Democratic politicians here, are very chary of expressing their opinions and shun the interviewers as they would a pestilence, I am in a position to say that the Herald speaks truly when it states that, "a careful canvass of the leading Democrats here from all sections who may be presumed to hold a representative position. The objections to Senator Trumbull and Charles Francis Adams are much stronger than the Herald puts them. It is declared that should either of these gentlemen be nominated at Cincinnati they will not be supported by the Democracy, and a third set of candidates drawn from the Conservative party, will then be put in the field. This is just what the Grant faction most fears. Despite the growing strength of the Liberal movement, I have heard no one intimate that it has the slightest chance of electing its candidates unaided; and, with two Republican tickets in the field, it is conceded the Democrats must win. Until recently I have never heard it claimed that the Liberals could carry a single State; but advices received here from Michigan are to the effect that if an election were to take place there next week the anti-Gant men would carry the State. The independent movement there is led by Hon. Austin Blair, a member of the present Congress, backed by his colleague, William M. Stoughton, both pronounced Republicans, and the latter is a prominent officer in the Grand Army of the Republic. So much for the progress of the Liberal movement.—*Cor. Mobile Register.*

THE HALL WHERE THE CINCINNATI CONVENTION MEETS.

Few political bodies have ever met in convention in a larger and more appropriate place than this. The great Wigwam at Chicago, in 1860, could only hold 10,000 people, packed standing. This Exposition Hall at Cincinnati will give seats with ease to 8,000, and if it were worth while to provide benches for more, would allow 10,000 to sit comfortably. The entire cost of the Chicago Wigwam was $7,0 0, while to alter Exposition Hall for the purposes of this gathering will consume about $5,000, and the edifice cost $90,000. It is 250 feet long by 125 feet wide, with a stage capable of accommodating 1,500 persons, and galleries for the ladies, strong and reliable, which will accommodate 2,000 of that fair sex, for whom a whole gallery side and the great end gallery are reserved. About three-fourths of the area of the floor will be covered with chairs, and a portion of the rest with benches. The long walks behind the galleries, around the sides of the audience, up the aisles and the vestibules, will be strewn with tanbark to deaden the noise of promenading. The stage has been thrown forward one-fourth of the way into the body of the hall, and a high surrounding-board constructed behind it to propel the voices of the speakers towards the audience. The stage itself has side stairways, and one main stair coming straight up to the presiding officer from the long main aisle. It is convex in front, so as to present at every point an arc vertical to the line of vision of each one in the audience, and the reporters' tables are set like short radii or spokes at the foot of this stage and a little below it. There are now seats for one hundred reporters, and if more be required a part of the stage will be given up to them. The Cincinnati newspaper men will have the distribution and dispensation of these seats, and the stage has been built much after the suggestion of Murat Halstead, Esq.

Around the gallery front the shields of all the States, in blue, red and white, are placed in order. Bands of music will be provided by the Cincinnati committee, and bands are also expected from St. Louis, New York and other places. If the Convention should overflow the main hall there are two side halls of enormous area, but unprovided with seats, one of which will hold 8,000 people and the other 15,000. These are suitable for mass meetings, promenades, etc.

The convention edifice stands about three-quarters of a mile or more from the line of public promenade on Fourth street, and a mile from the chief hotels, but very near the German part of Cincinnati, where there is an abundance of commodious, quaint and cosy hotels, and some of the best wine and steak houses in the Queen City. Behind it is the canal to Lake Erie; before it the fresh, green square called Washington Park. It is a frame structure, with two great towers on each side of the bowed roof." Within, it looks like a sort of white-washed depot, well lighted, with fair accoustic properties, lofty and well ventilated. Its strength has been tested by the weight of machinery and masses of people in motion during the fairs and saengerfests held here.

THE VIEW FROM WASHINGTON.

WASHINGTON, April 29.—Telegraphic advices received here from Cincinnati indicate that the Presidential contest is narrowed to Davis and Adams. The Democratic paper here to-day contains a double-leaded article, written after consultation with members of the House belonging to the Democratic party, opposing the nomination of Adams, and declaring that the New York World has no *ex cathedra* right to assume that the Democratic party will support him if he is nominated at Cincinnati. Even if ratified by the National Democratic Convention, it doubts if the party would solidly support him, and insists that Adams' recent letter makes it doubtful whether he would accept their Cincinnati nomination. It concludes as follows: "In any event, no matter what transpires at Cincinnati, the Democratic Convention will be held, and it will command the respect of the country, and its conclusions will be accepted by the political organization which it will represent. Our New York contemporary can neither prevent its assembling nor dictate its action, nor shape its deliberations, and in the present condition of public affairs, when we are passing through a great crisis in the history of parties, a tone less influenced by personal considerations would be wiser and more discreet in a leading public journal. We earnestly hope that the Cincinnati Convention will make its own nomination, looking alone to the public good, and under the assurance that in achieving the patriotic purpose for which it was called it will have the aid and sympathy of all patriotic men. In this loftier view of the subject, the public ends to be gained are everything; the man nothing except as an instrument to accomplish the result. The prominent question therefore, before the Cincinnati convention is, who among those capable of wielding the power of the Chief Magistrate of the nation can most certainly combine in his support the patriotic men of all parties who desire reform in the National government, the supremacy of the civil over the military power in time of peace, and a restored vigor to the torn and trammeled guarantees of constitutional liberty."—*Special to Courier-Journal.*

A bill repealing the prohibition of promotions in the staff department of the army passed.

The Navy appropriation bill was resumed.

Trumbull, from the Committee on Judiciary, reported a bill authorizing terms of the United States District Court to be held at Fort Gibson, Indian Territory.

In the House the bill removing the Kansas tribe of Indians to the Indian Territory and selling their lands to settlers passed.

Free tea and coffee as amended by the Senate was passed and goes to the President.

Tariff discussion was resumed.

Kelly gave notice he would move to strike out the enacting clause at the proper time.

Conner, of Texas, made a free trade speech.

It is officially announced that this Government will not modify its case, but should England propose when she is a belligerent and the United States neutral, to waive consequential damages on account of vessels escaping hence, the United States will waive money consideration in this instance.

Probabilities.—The area of rain will extend over New England to-night with a rising barometer. Northwesterly to westerly winds, and generally clear weather will prevail on Thursday from the lakes to the Gulf and South and middle Atlantic coast, and extend over New England by or on Thursday evening. Brisk Northwesterly winds are probable for the upper lakes, and extend over the lower lake to-night, but dangerous winds are not expected.

OHIO.

CINCINNATI, May 5.—Judge Wm. B. Caldwell, President of the Cincinnati Reunion and Reform Association, called the convention to order and nominated Judge J. P. Stallo, of Cincinnati, temporary President. Judge Stallo, on appearing on the stage, was received with considerable applause. His speech indicated full harmony with the national convention.

The New York delegation had an exciting meeting at which 125 delegates were present. The following resolution was passed:

Resolved, That the New York delegation cast its vote for Horace Greeley until ten delegates request the delegation to retire for consultation, after which the vote shall be cast for Greeley subject to the direction of the delegation.

The small arm chair, sent for the President of the convention, and which was occupied by John Adams when he signed the Declaration of Independence, is quite plain, black with gilt decorations, and upholstered in snuff colored reps. The playing by a brass band from St. Louis, stationed near the door, was a signal for the general entrance of the delegates. Among them were several colored men from Southern States. The floor of the hall was nearly filled by the delegates. There was but a meagre attendance of spectators, of whom there are not four hundred in the galleries, which should accommodate twenty-five hundred.

Groups are gathered in various parts of the house in animated conversation, evidently discusing the still unsettled points of difference.

It is authoritatively stated that Fenton left town this morning. His friends are mysteriously reserved to reasons for his departure.

Col. Grosvenor, of St. Louis, called the convention to order in a brief speech. He claimed great importance for this convention as the largest in number of delegates and the truest representatives of public sentiment ever assembled, and that those sentiments which always does and always shall rule the country. The wisdom of this convention the will of the people at the next fall election will make more successful; need not make the usual appeal for harmony to men who abandon connection with a successful party to take their political future upon this movement for rest.

Judge Stanley Matthews, of Ohio, was nominated for temporary chairman, which was carried unanimously.

Matthews said: It is no idle affectation when I say it is impossible to express the deep sensibility with which I receive and accept the unexpected honor thus conferred upon me. I am unprepared to preface the assumption of the duties of the Chair with such remarks as are appropriate to this occasion. No one could get the people to say what the result of this convention will be; but the main thing, that which set above all else, was that the time has come when it is the voice of a large and influential portion of the people that they no longer be dogs to wear the collar of party. [Cheers.]

We have heretofore been members of the Republican party. Be not ashamed to have won that name; the past of the party was commendable in its work of sustaining the Union against secession; its work had become part of the fundamental law, and with it the principle of equality of all before the law had been established. He considered this convention their rebellion against the Republican party, the highest eulogy of principles of that party, for it shows that the party has high courage to set about the work of reforming itself. [Applause.] Parties cannot live on their past reputation; it was because those who control the Republican machinery and the principles have divided them from their true purpose, that this movement was initiated. The war has ended and peace has come—so ought end military rule [Cheers]—everything that keeps alive and fans the embers of the dead past.

The convention adjourned till 10 o'clock to-morrow morning, after resolving that each State delegation shall elect delegates equal in number to double the votes of each State in the Electoral College.

NEW YORK.

NEW YORK, May 1.—The Methodist General Conference opened at 10 A. M. in the Academy of Music, Brooklyn. Bishops Morris, Simpson, Ames and Jones were present. The house was crowded with delegates and the general public. Rev. Dr. Morris was re-elected Secretary.

A proposition to change the second restrictive rule and admit lay delegates as part of the General Conference, was then taken up, and after considerable discussion it was carried by a vote of 279 to 6, Dr. Currey, editor of the New York Christian Advocate, voting no.

NORTH CAROLINA.

GREENSBORO, May 1.—The Democratic Convention nominated A. H. Memmon for Governor.

SOUTH CAROLINA.

CHARLESTON, May 1.—In the United States Court to-day the jury found Robert Riggins, of York county, guilty of conspiracy, and not guilty of murder. Fourteen prisoners, who had pleaded guilty of conspiracy, were sentenced to imprisonment and fines, their terms ranging from two to ten years and fines ranging from one hundred to one thousand dollars. To-morrow will be the last day of the trials.

MIDNIGHT DISPATCHES.

OHIO.

CINCINNATI, May 1.—An exciting debate arose in the New York delegation this afternoon over a resolution pledging the delegation to vote for Horace Greeley. Some of the members were opposed to tying the hands of delegates, and others, while willing to give Greeley a complimentary vote, were desirous of seeing him nominated because of his protective theories.

Mr. Lloyd protested indignantly against the resolution as a violation of the rights of the minority, and raised a storm of dissent by claiming that the very reason the Liberals abandoned the Republican organization was because the majority in it has overruled the minority.

Finally a substitute was adopted by 99 to 22 that the delegation vote as a unit for Greeley until 20 delegates request a consultation, after which the vote shall be cast as the majority may direct.

ITALY.

NAPLES, May 1.—No harm whatever has been done to Naples by the eruption of Mount Vesuvius, although there have been frequent shocks of earthquakes and showers of ashes from the volcano, which latter fell to the depth of several inches in the city. The eruption is steadily abating in violence and, it is thought, will shortly cease altogether.

The inhabitants of several villages at the base of the volcano, who fled from their homes at the approach of the lava, have returned and resumed work.

VERMONT.

BELLOW FALLS, May 1.—The Republican State Convention met here to-day and appointed delegates to the Philadelphia Convention. Resolutions were adopted in favor of the renomination of Grant and Colfax.

MEXICO.

MATAMORAS, May 1.—The black flag was hauled down from the ramparts upon the protest of the United States Consul.

It is supposed that the Revolutionists will attack the city on the 5th.

The same arrangements have been made with the Macon and Western Railroad, Western and Atlantic Railroad, Georgia Railroad and Air-Line Railroad, for the 10th and 11th only. The H. I. Kimball House, National Hotel Sasseen House, American Hotel, Mrs. Cannon's and Mrs. Overby's boarding houses have consented to receive guests at reduced rates. A cordial invitation is extended to schools and individuals to bring and send flowers, for the number of graves is so great that the Ladies' Memorial Association heretofore have had cause to regret that their ability was inadequate to the demand. SUPREME COURT OF GEORGIA, *May* 1, 1872.

No. 4, Northern Circuit, Jackson B. Johnson, administrator, vs. R. Stokes Sayre et al. Equity, from Hancock. B. H. Hill, Esq., upon announcing that he represented interests involved in the decision of this case, was permitted to appear for the plaintiff in error. L. Stephens, George F. Pierce, B. H. Hill, for plaintiff in error. R. Toomos, C. W. DuBose, contra.

Pending the concluding argument of General Robert Toombs the Court adjourned until 10 o'clock A. M. to-morrow.

DEATH OF REV. W. H. CLARKE.—A note from our esteemed friend, Dr. J. C. Avary, at Decatur, conveys to us the sad intelligence of the death, in Decatur yesterday at 9 o'clock, A. M., of Rev. W. H. Clarke. Rev. Mr. Clarke was a leading minister of the Methodist Church—known and approved for zeal, piety and earnest, active christianity. He was a faithful sentinel on the watchtower of Zion. In his death DeKalb county has lost a good citizen, the church a shining light, and rocky one of its most useful members. He has rested from his labors and gone up higher. He was a bright Mason. Rev. Mr. Clarke will be buried at eleven o'clock to-morrow, at Decatur. Members of the Fraternity in this city are invited to attend his funeral.

PICNICS YESTERDAY.—The Good Templars of this city, some 500 or 600, picnicked yesterday to Marietta, and had a good time.

The First Baptist Sunday School went to Stone Mountain. A more orderly and well behaved school we have seldom seen. They enjoyed the occasion and the rain. Stone Mountain wants to see them again. A large crowd came up from Covington to Stone Mountain.

The Hibernian picnic at Ponce de Leon Spring was a grand success, both in numbers and enjoyment. Notwithstanding a heavy fall of rain, all passed off well. The management was splendid.

THE PRINCE ARTHUR.—This fine low-cut shoe is from the manufactory of Canfield, Jones & Co., of Newark, N. J., who are at present time manufacturing extensively for the leading custom trade in all our principal cities. It is one of the most popular Southern styles, and is strictly a first-class shoe in style and finish.

During the recent visit of the Japanese Embassy to Newark, they visited the manufactory of Messrs. Canfield, Jones & Co.; while there, a proposition was made to fit Prince Hida with a pair of shoes. He was evidently not displeased with the idea, and when the senior Mr. Jones, with his irresistible smile, presented a pair of "Prince Arthurs," dignity yielded so far as to try them on; after that the perfect fit did its work, and his Highness left Newark with a box under his arm containing a pair of Canfield, Jones & Co.'s best.

Markham & Andrews have the "Prince Arthur," and all the fashionable styles of Gaiters, Shoes and Slippers for gents, ladies and misses wear. If you want a good article at low figures, give them a call.

New Georgia Bonds for Sale.

STATE TREASURER'S OFFICE, ATLANTA, GA., April 6th, 1872.

The 7 per cent. State bonds, authorized by an Act approved January 18th, 1872, and issued for the purpose of exchange or redemption of old State bonds of Georgia maturing this year, are now ready for disposal according to the provisions of the bill.

Quite a number have already been sold to Georgians at 90 cents, and an opportunity for a few weeks is offered to obtain them at the State Treasury office at the above price, or they will be exchanged for the old bonds falling due, rating the old bonds at par and the new bonds at 90 cents, the State paying a difference of 10 per cent. in cash.

These new bonds are desirable on several accounts

1. They are issued in strict accordance with law.
2. No more are issued than barely enough to take up the old bonds maturing.
3. They are *Redemption* bonds, which are rated on the stock market as the very best class of securities.
4. The coupon interest will be paid promptly semi-annually, either in New York or the State Treasury.
5. They are exempt from State taxation.

Orders for purchase, or bonds for exchange can be sent to the State Treasurer in Atlanta, and will receive prompt attention.

There are strong reasons, for these new bonds being at par in a short time, and it is hoped Georgians will continue to show their appreciation, as has the highest Judicial officer of the State, by purchasing twenty-five thousand dollars for himself.

By the advice and approval of the Governor.

N. L. ANGIER,

City Hospital.

THE need of a CITY HOSPITAL for Atlanta has long been felt, but all efforts heretofore for the establishment of such have failed, our people being too poor to raise the money necessary for such a purpose, and the depleted condition of our State Treasury being such as to render successful legislation to the matter both impracticable and hopeless.

It is, therefore, proposed to appeal to all friends of so benevolent a project, and thus secure a nucleus to encourage an increase of the private donations already promised, which will render the scheme a success; and while the erection of such an institution will be an enduring Monument to the Charity and Liberality of our citizens, it will also be in keeping with our onward march in the cause of

Civilization and Progress.

For every Two Dollars subscribed, an equal interest will be given the holder of Certificate thereof in the distribution of

HEALTH! BEAUTY!!

Strong and Pure Rich Blood—Increase of Flesh and Weight—Clear Skin and Beautiful Complexion Secured to all.

Dr. Radway's Sarsaparillian Resolvent

Has made the most astonishing Cures; so quick, so rapid are the changes the Body undergoes, under the influence of this Truly Wonderful Medicine, that

EVERY DAY AN INCREASE IN FLESH AND WEIGHT IS SEEN AND FELT.

THE GREAT BLOOD PURIFIER.

Every drop of the SARSAPARILLIAN RESOLVENT communicates through the Blood, Sweat, Urine, and other fluids and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material. Scrofula, Syphilis, Consumption, Glandular disease, Ulcers in the throat, Mouth, Tumors, Nodes in the Glands and other parts of the system, Sore Eyes, Strumorous discharges from the Ears, and the worst forms of Skin diseases. Eruptions, Fevers, Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful discharges, Night Sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of this wonder of Modern Chemistry, and a few days' use will prove to any person using it for either of these forms of disease its potent powers to cure them.

If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting these wastes, and repairs the same with new material made from healthy blood—and this the SARSAPARILLIAN will and does secure—a cure is certain; for when once this remedy commences its work of purification, and succeeds in diminishing the loss of waste, its repairs will be rapid, and every day the patient will feel himself growing better and stronger, the food digesting better, appetite improving, and flesh and weight increasing.

Scarcely does the SARSAPARILLIAN RESOLVENT excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional, and Skin diseases; but it is the only positive cure for

Kidney and Bladder Complaints

Urinary, and Womb diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's Disease, Albuminuria, and in all cases where there are brick-dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white sil

THE EARLY BIRD.

"Up with the breeze, the birds and the bees,
I heard a boy sing in the morn;
And his hoe kept time with the merry rhyme,
As he cheerfully hoed his corn.

Down went the weeds and the noxious seeds,
And up went the emerald corn,
And I looked with delight at the gladsome sight,
The work of the early morn.

Then the heart of the boy was filled with joy,
As down came the rays of the sun,
And told him to go and put up his hoe—
They'd finish the work he'd begun.

The broad green leaves turned to golden sheaves,
And this field of beautiful corn
Was gathered and sold; thus turned into gold—
The work of the early morn.

Then up with the breeze, the birds and the bees,
If you wish to grow wealthy and wise;
And merrily sing, like birds in the spring,
While your work as merrily flies.

The poor sleepy head, who lingers in bed,
Will have more sorrows than joys;
And when he grows old will be hungry and cold,
So keep 'wide awake," my boys.

The gauntiest little gypsy of leghorn, trimmed with turquish blue ribbon and white cheuguerites, named Dolly Varden, and worn by some of the young ladies to church on Sunday last, is the most becoming head gear worn for some time.

The Dolly Varden is simply a bunched up overdress, cut in antique style, and made of any flowered material which most resembles old fashioned chintz bed room furniture.

About Women.

Indianapolis girls, when at the opera, occupy balcony seats, and playfully hang their feet over the railing. A man in the parquette recently had the top of his head badly bruised by one of the young ladies dropping her shoes on him.

According to the census of 1870, during that year in Massachusetts six girls were married at fourteen, thirty-three at fifteen and one hundred and eighty-one at sixteen. A woman of twenty-five was also married for the fourth time.

Scientific Notes.

Collectors were, at a recent meeting of the Etomological Society, advised to be on their guard against tricky dealers, who manufacture new varieties by dipping various insects into aniline and other colors.

The teeth of the insane are prone to undergo certain changes. Dr. Langdon Down states that from the examination of nearly one thousand cases he has found that in a majority of instances he could state the period at which the insanity began.

Railway dust is, according to a recent analysis, composed chiefly of iron. No less than fifty per cent. of a quantity that collected on a newspaper was found to consist of fine particles of this metal, which was easily separated by a magnet. The rest is chiefly finely divided fragments of cinders. By traveling on railways at night much of the unpleasantness of this dust is avoided.

Leading Notices.

INFECTION IN THE AIR.—At this season the vegetable world takes a new lease of life; but to the sensitive and delicate members of the human family it is a time of danger and often of great suffering. The moisture which rises from the earth and hangs suspended over it in the form of morning and evening mists and fogs, holds in solution, so to speak, the mephitic elements which produce fever and ague, remittent fevers, rheumatism, and many painful nervous disturbances, and which aggravate dyspepsia, biliousness and all minor affections of the stomach and the bowels. This, therefore, is a critical period of the year, a season when the renovating, refreshing and purifying operation of the mightiest of all vegetable tonics and alteratives, Hostetter's Stomach Bitters, is salvation to the weak, and the best security for the continuance of the health and vigor of the strong. Now is the time not only to protect the system against the common ailments of the season, but to prevent the disorders incident to a warmer temperature. Let not the exhausting heats of the summer months find you unprepared to meet them. A course of Hostetter's Bitters, commenced now, will put all the physical energies in fighting trim, double the capacity of the internal organs to repel the causes of disease, refresh the brain and clear it of all hypochondriacal cobwebs, and place the whole physique in an attitude of defence, with every available point fortified and guarded and as nearly invulnerable to unwholesome influences as it is possible for the human structure to be. apr30-deod1w&wlt.

BRONCHITIS.—This is an irritation or inflammation of the bronchial tubes, which carry the air we breathe into the lungs. It arises from a cold settled in the throat, from Catarrh extending to these parts, from scrofulous affections, and from severe use of the voice. The irritation from this latter cause commences in the *larynx* and *glottis*, which are the organs of the voice, and extending downwards, produces hoarseness, coughing and spitting mucous matter, sometimes mixed with blood. It is chiefly dangerous from its tendency to spread into the lungs, and terminate in consumption. It is in the cure of severe and obstinate cases of this disease that Dr. Pierce's Golden Medical Discovery has achieved unparalleled success, and won the loudest praise from all who have used it. It is sold by all respectable druggists. apr30-deod&wlt

EDITORIAL NOTICES are so common that it is almost impossible for an editor to express his honest opinion of the merits of any article without being suspected of interested motives. This fact, however, shall not deter us from saying what we think of a new addition to the Materia Medica to which our attention has been recently directed. We refer to Dr. J. Walker's California Vinegar Bitters, a remedy which is making its way into more families just now than all the other advertised medicines put together. There seems to be no question about the potency of its tonic and alterative properties, while it possesses the great negative recommendation of containing neither alcohol nor mineral poison. That is a specific for Indigestion, Billiousness, Constipation, and many complaints of nervous origin, we have reason to know; and we are assured on good authority that as a general invigorant, regulating and purifying medicine, it has no equal. It is stated that its ingredients, (obtained from the wilds of California,) are new to the medical world; and its extraordinary effects certainly warrant the conclusion that it is a compound of agents hitherto unknown. If popularity is any criterion, there can be no doubt of the efficiency of the Vinegar Bitters, for the sale of the article is immense and continually increasing. apr15-d&w1m.

THE TENACITY OF TRUTH.—When a nation as clear-headed as the Americans once become convinced, from long experience and observations, that an article possesses superior excellence as a medicine, not all the preposterous clamor of all the worthless nostrum venders in the universe can shake their belief in its efficiency. Truth is a very tenacious thing, as these worthies are beginning to discover. Plantation Bitters has too firm a hold upon the popular esteem to be in the slightest degree effected by the cold water diatribes which the advertisers of fermented slops, "without a particle of alcohol," are so fond of launching against all alcoholic preparations. The public knows very well that this peerless renovant and tonic does contain spirits, but it also knows that they are of the purest and most wholesome description, viz.: fine old St. Croix, the most active and beneficial diffuser of its remedial and invigorating could possibly be adopted. apr30-deod1w&wlt.

BACHELORS' HAIR DYE.—This superb Hair Dye is the best in the world—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces immediately a splendid black or natural brown, leaves the hair clean, soft, beautiful; does not contain a particle of lead or any injurious compound. Sold by all druggists. Factory, 16 BOND STREET, oct2—d1y New York.

FOR COUGHS and throat disorders, use Brown's Bronchial Troches, having proved their efficiency by a test of many years. apr30-d1w tues thur sat

THE EARLY BIRD.

"Up with the breeze, the birds and the bees,
I heard a bop sing in the morn;
And his hoe kept time with the merry rhyme,
As he cheerfully hoed his corn.

Down went the weeds and the noxious seeds,
And up went the emerald corn,
And I looked with delight at the gladsome sight,
The work of the early morn.

Then the heart of the boy was filled with joy,
As down came the rays of the sun,
And told him to go and put up his hoe—
They'd finish the work he'd begun.

The broad green leaves turned to golden sheaves,
And this field of beautiful corn
Was gathered and sold; thus turned into gold—
The work of the early morn.

Then up with the breeze, the birds and the bees,
If you wish to grow wealthy and wise;
And merrily sing, like birds in the spring,
While your work as merrily flies.

The poor sleepy head, who lingers in bed,
Will have more sorrows than joys;
And when he grows old will be hungry and cold,
So keep 'wide awake," my boys.

Dolly Vardens.

Memphis bucks swash their aliamentary canals with Dolly Varden cocktails.

Some of the Georgia editors are now gotten up in Dolly Varden patterns—mixed black and white.

Going into dry goods stores and "looking at Dolly Vardens" is the chief amusements of young ladies now.

The Dolly Varden came up from the ranks, was first introduced in flowing cotton chintz for morning wear, and has only been promoted to silks and brocades.

Anticipating warm weather, the sagacious editor of a journal in a neighboring town, has contracted for a pair of flowing Dolly Varden pantaloons for the Press Convention.

The gauntiest little gypsy of leghorn, trimmed with turquish blue ribbon and white cheuguerites, named Dolly Varden, and worn by some of the young ladies to church on Sunday last, is the most becoming head gear worn for some time.

The Dolly Varden is simply a bunched up overdress, cut in antique style, and made of any flowered material which most resembles old fashioned chintz bed room furniture.

Ah! well—"Sweeter than the loveliest rose, or lillies of the garden,
Is that new, neat, and queenly dress, the lovely Dolly Varden."

Australia is not self-supporting as a colony she cost England about $1,000,000 last year. Next to gold, her great product is wool. The North American possessions cost England over $5,000,000.

Scandal About Ladies.

An irreverent Terre Haute reporter calls church "Gospel dress parade."

"Come into the Varden, Maud," is the way in which musical mamas urge their daughters to try on their new calico dresses.

The local of a paper in Boone county says, "Come where my love lies dreaming—and see how she looks without any paint on her face."

Loving wife at Long Branch: "The horrid surf makes me keep my mouth shut." Sarcastic husband: "Take some of it home with you."

The reason assigned for so many ladies learning to play the violin of late years is, that the idea of having four strings to their bow is irresistible.

Three things, the New York Standard says, a woman cannot do—sharpen a pencil, tie up a bundle, and carry an umbrella. She has proven her ability for all else.

About Women.

A French woman in New Orleans gives fencing lessons, and the *maitresse d'armes* is patronized by all the young bucks in town.

Indianapolis girls, when at the opera, occupy balcony seats, and playfully hang their feet over the railing. A man in the parquette recently had the top of his head badly bruised by one of the young ladies dropping her shoes on him.

According to the census of 1870, during that year in Massachusetts six girls were married at fourteen, thirty-three at fifteen and one hundred and eighty-one at sixteen. A woman of twenty-five was also married for the fourth time.

Scientific Notes.

The teeth of the insane are prone to undergo certain changes. Dr. Langdon Down states that from the examination of nearly one thousand cases he has found that in a majority of instances he could state the period at which the insanity began.

Railway dust is, according to a recent analysis, composed chiefly of iron. No less than fifty per cent. of a quantity that collected on a newspaper was found to consist of fine particles of this metal, which was easily separated by a magnet. The rest is chiefly finely divided fragments of cinders. By traveling on railways at night much of the unpleasantness of this dust is avoided.

Leading Notices.

INFECTION IN THE AIR.—At this season the vegetable world takes a new lease of life; but to life sensitive and delicate members of the human family it is a time of danger and often of great suffering. The moisture which rises from the earth and hangs suspended over it in the form of morning and evening mists and fogs, holds in solution, so to speak, the mephitic elements which produce fever and ague, remittent fevers, rheumatism, and many painful nervous disturbances, and which aggravate dyspepsia, biliousness and all minor affections of the stomach and the bowels. This, therefore, is a critical period of the year, a season when the renovating, refreshing and purifying operation of the mightiest of all vegetable tonics and alteratives, Hostetter's Stomach Bitters, is salvation to the weak, and the best security for the continuance of the health and vigor of the strong. Now is the time not only to protect the system against the common ailments of the season, but to prevent the disorders incident to a warmer temperature. Let not the exhausting heats of the summer months find you unprepared to meet them. A course of Hostetter's Bitters, commenced now, will put all the physical energies in fighting trim, double the capacity of the internal organs to repel the causes of disease, refresh the brain and clear it of all hypochondriacal cobwebs, and place the whole physique in an attitude of defence, with every available point fortified and guarded and as nearly invulnerable to unwholesome influences as it is possible for the human structure to be. apr30-deod1w&w1t.

BRONCHITIS.—This is an irritation or inflammation of the bronchial tubes, which carry the air we breathe into the lungs. It arises from a cold settled in the throat, from Catarrh extending to these parts, from scrofulous affections, and from severe use of the voice. The irritation from this latter cause commences in the *larynx* and *glottis*, which are the organs of the voice, and extending downwards, produces hoarseness, coughing and spitting mucous matter, sometimes mixed with blood. It is chiefly dangerous from its tendency to spread into the lungs, and terminate in consumption. It is in the cure of severe and obstinate cases of this disease that Dr. Pierce's Golden Medical Discovery has achieved unparalled success, and won the loudest praise from all who have used it. It is sold by all respectable druggists. apr30-deod&w1t

EDITORIAL NOTICES are so common that it is almost impossible for an editor to express his honest opinion of the merits of any article without being suspected of interested motives. This fact, however, shall not deter us from saying what we think of a new addition to the Materia Medica to which our attention has been recently directed. We refer to Dr. J. Walker's California Vinegar Bitters, a remedy which is making its way into more families just now than all the other advertised medicines put together. There seems to be no question about the potency of its tonic and alterative properties, while it possesses the great negative recommendation of containing neither alcohol nor mineral poison. That is a specific for Indigestion, Biliousness, Constipation, and many complaints of nervous origin, we have reason to know; and we are assured on good authority that as a general invigorant, regulating and purifying medicine, it has no equal. It is stated that its ingredients, (obtained from the wilds of California,) are new to the medical world; and its extraordinary effects certainly warrant the conclusion that it is a compound of agents hitherto unknown. If popularity is any criterion, there can be no doubt of the efficiency of the Vinegar Bitters, for the sale of the article is immense and continually increasing. apr15-d&w1m.

THE TENACITY OF TRUTH.—When a nation as clear-headed as the Americans once become convinced, from long experience and observations, that an article possesses superior excellence as a medicine, not all the preposterous clamor of all the worthless nostrum venders in the universe can shake their belief in its efficiency. Truth is a very tenacious thing, as these worthies are beginning to discover. Plantation Bitters has too firm a hold upon the popular esteem to be in the slightest degree effected by the cold water diatribes which the advertisers of fermented slops, "without a particle of alcohol," are so fond of launching against all alcoholic preparations. The public knows very well that this peerless renovant and tonic does contain spirits, but it also knows that they are of the purest and most wholesome description, viz.: fine old St. Croix, the most active and beneficial diffuser of its remedial and invigorating could possibly be adopted.
apr30-deod1w&w1t.

BACHELORS' HAIR DYE.—This superb Hair Dye is the best in the world—perfectly harmless, reliable and instantaneous; no disappointment; no ridiculous tints or disagreeable odor. The genuine Wm. A. Batchelor's Hair Dye produces immediately a splendid black or natural brown, leaves the hair clean, soft, beautiful; does not contain a particle of lead or any injurious compound. Sold by all druggists. Factory, 16 BOND STREET, oct2—d1y New York.

FOR COUGHS and throat disorders, use Brown's Bronchial Troches, having proved their efficiency by a test of many years.
